

LARGEO Managing Director Alexander Yakovlev, “Seismic Sector Lacks Investment”

Featured Article

Feb 2011: LARGEO Managing Director Alexander Yakovlev, “Seismic Sector Lacks Investment”

The establishment of the LARGEO-ION/GXT alliance in 2008 helped Russian LARGEO enforce its positions on the Russian market of seismic data processing and interpretation. For the first time in the world, the joint enterprise used the 3D Surface Related Multiple Elimination method in a large-scale marine project for Rosneft in the Black Sea.
